WORK EXPERIENCE

Mattmen, Inc. (Nov 2014 - Present)

Digital Marketer (Nov 2014 – Present)

- Created AI Agents to post content social media content daily.
- Managed multiple social media accounts by using Go High Level, Hubspot or Python.
- Provided exceptional customer service experience to clients to better identify problems that needed to be solved
- Work with both Go High level and HubSpot to deliver automation workflows and marketing analysis
- Leverage Artificial Intelligence for content creation.

Full Stack Web Developer · (Nov 2014 - Present)

- Developed front end web designs using Adobe XD, Figma, and draw.io for multiple projects.
- Reached 3NF by designing in Workbench for projects that consists of MySQL.
- Begin projects with static HMTL designs and styled with either CSS or Tailwind CSS.
- Added Dynamic functionality by converting HMTL designs to blades and combing either PHP, JavaScript, or Alpine.JS
- Constructed different sections of a website using Livewire components which consist of a controller and a blade.
- Created, Read, and updated all data on backend using PHP Models and Migrations. (Only delete in staging).
- Analyzed website traffic with Google Analytics and Doman registrar tools.
- Used Vapor Serverless PHP platform, powered by AWS, to deploy to both staging, where I used a vanity domain, and production environments, which I configured with the actual site domain
- Solid Understanding of obtaining data via JavaScript fetching and AJAX request of APIs using JSON
- Utilized SEO tools powered by domain registrar to gain traffic to website project.
- Primarily used GitHub as my project management and documentation tool for all projects.

System Support Specialist/Full Stack Web Developer · (Nov 2014 - Present)

- Provided helpdesk services for clients who called in with issues and complaints and used my problem-solving skills to provide solutions.
- Responsible for running an outsourced Information Technology (IT) department for several clients.
- Displayed my skills in managing licenses, clients' IT budget, Security, Projects, and Helpdesk.
- Delivered network, application, and e-management services across both Local Area Networks and Wide Area Networks.
- Supported and enforced backup solutions for both hardware and software solutions.
- Documented all tasks, issues, and inventory to provide detailed reporting in preparation for any audits.
- Created Visio diagrams which displayed network designs and listed detailed configurations
